

A Call to Action, Creating a Movement: The Center for Health Equity Action Plan

December 3, 2018

Los Angeles Alliance for Community and Aging

Sandy Song, Center for Health Equity

Everyone deserves...

	Good schools		A thriving and inclusive economy
	Safe and supportive neighborhoods		Strong social connections
	Quality healthcare`		Sustainable, healthy environments

12 years

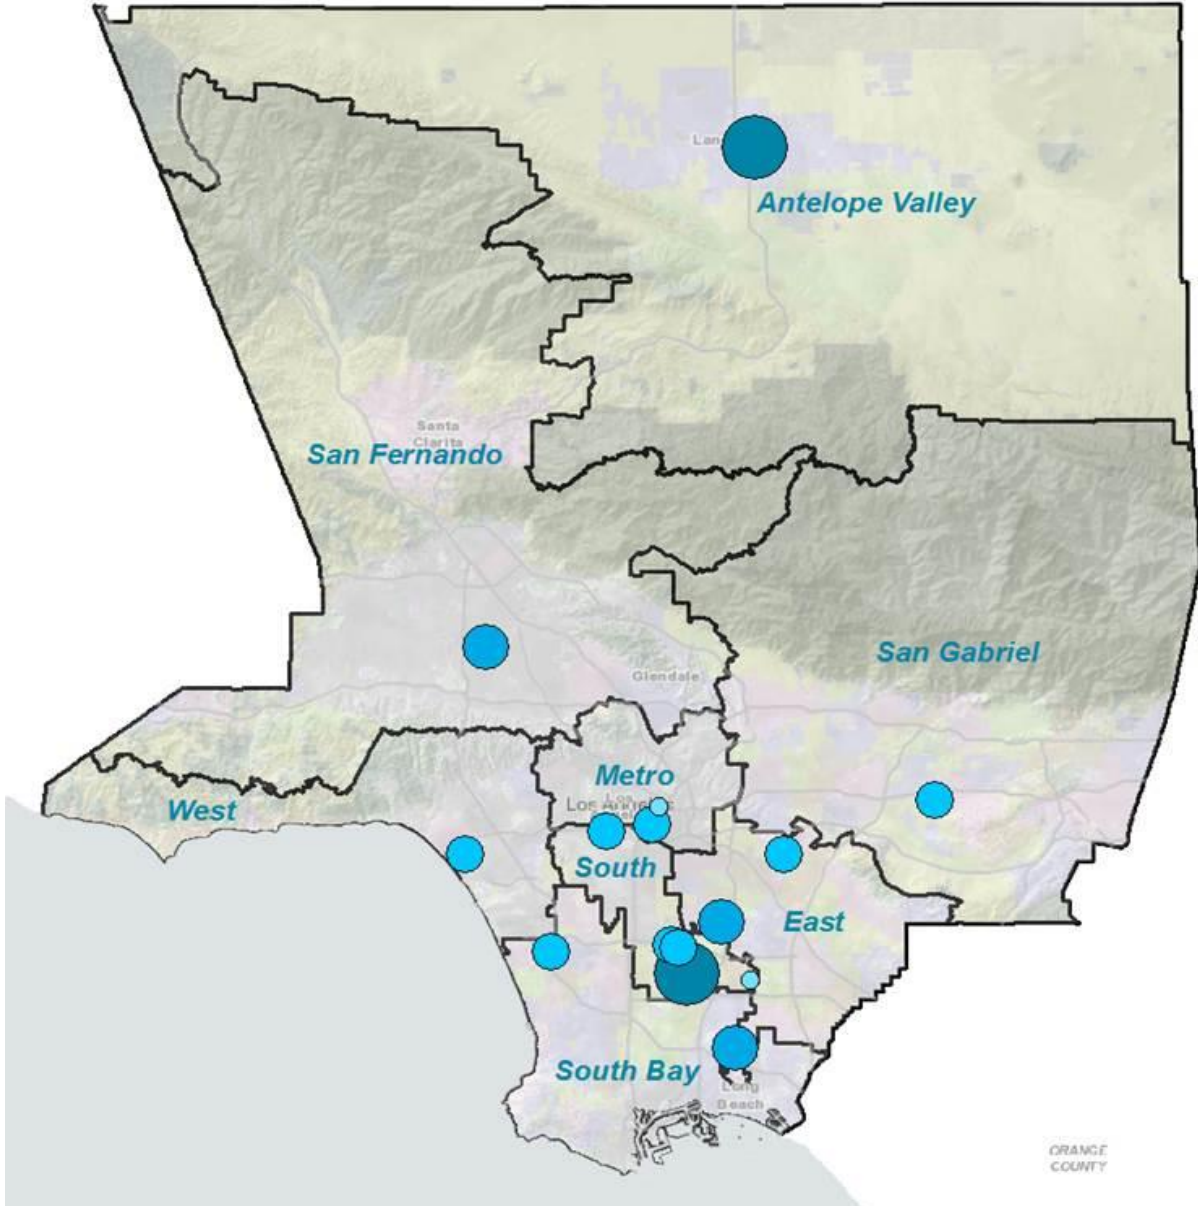

Health Equity means that everyone has the opportunities and resources needed for optimal health and well-being

The Center for Health Equity (CHE)

- **CHE efforts will span across the Los Angeles Health Agency and will:**
 - Leverage existing resources and efforts;
 - Ensure a racial and social justice lens; and
 - Serve as a critical touchpoint for partners and community

CENTER FOR HEALTH EQUITY

ACTION PLAN 2018-2023

The Action Plan

This plan is a call to action and seeks to grow a movement to advance health equity in LA County. As with all movements, it is driven by aspirations to change the status quo.

It won't be easy.

Our movement requires partnerships among County and community stakeholders across sectors and sustained effort over time. It will require the shared commitment, bold action and accountability of us all.

To succeed, we need to come together as collaborators and partners to reduce gaps in health outcomes that affect our most marginalized communities. We need your leadership, innovation and imagination to realize a SHARED vision for a better tomorrow.

Join the movement.

Center for Health Equity Strategic Priorities
